

Financial Statement Disclosures for December 31, 2024

The following is the Public Trust Advisors, LLC (Fund Administrator) interpretation of your disclosure responsibilities related to your participation in the Nebraska CLASS local government investment pool. The information provided may be required for the financial reporting of Participants in Nebraska CLASS. Participants should consult their auditing and accounting professionals regarding their specific reporting requirements.

GASB 79 Disclosure

According to the Governmental Accounting Standards Board (GASB), in order for an investment pool to qualify for the use of amortized cost accounting for financial reporting purposes, it must meet all of the criteria listed in GASB Statement No. 79. Nebraska CLASS is managed as stable value NAV pool but does not meet all of the specific criteria outlined in GASB 79 Paragraph 4, therefore Nebraska CLASS Participants should report their investments in the pool at fair value. The value of your investment in Nebraska CLASS as stated on your December 31, 2024 statement should be used as the fair value of your investment.

GASB 72 Fair Value Hierarchy Reporting for Nebraska CLASS

Nebraska CLASS measures its investments at fair value and therefore a Participant's investment in the pool is not required to be categorized within the fair value hierarchy for purposes of Paragraph 81a(2) of Statement 72*.

GASB 40 Note Disclosure Requirement for Nebraska CLASS

Custodial Credit Risk Disclosure

Nebraska CLASS is an external investment pool and therefore is not subject to custodial credit risk; your investment in the pool is exempt from the reporting requirement.

Interest Rate Risk Disclosure

The dollar weighted average days to maturity (WAM) of Nebraska CLASS at December 31, 2024, was 38 days and the weighted average life (WAL) was 75 days.

This document is for informational purposes only. All information is assumed to be correct but the accuracy has not been confirmed and therefore is not guaranteed to be correct. Information is obtained from third party sources that may or may not be verified. The information presented should not be used in making any investment decisions and is not a recommendation to buy, sell, implement, or change any securities or investment strategy, function, or process. Any financial and/or investment decision should be made only after considerable research, consideration, and involvement with an experienced professional engaged for the specific purpose. All comments and discussion presented are purely based on opinion and assumptions, not fact. These assumptions may or may not be correct based on foreseen and unforeseen events. Many factors affect performance including changes in market conditions and interest rates and in response to other economic, political, or financial developments. **Past performance is not an indication of future performance. Any financial and/or investment decision may incur losses.**

Weighted Average Maturity (WAM) calculates the average number of days until maturity for a portfolio of securities. WAM uses the next interest rate reset date, call date or put date in the calculation and therefore should always be less than or equal to weighted average life (WAL).

Weighted Average Life (WAL) calculates the average number of days until maturity for a portfolio of securities using the stated maturity date for all securities, including variable rate, callable or puttable securities.
